

THE OFFER

One plan. €1,200 a year. Everything included.

Twelve months of the full bankroll terminal, twelve months of automatic results tracking, and three 1:1 coaching calls with Felix — timed around your data, not around a sales calendar.

Billed €100 / month + VAT · 12-month initial term · then month-to-month · cancel renewal any time

WHAT YOU GET

PLATFORM

12 months of the full terminal

Bayesian Belief Clouds, the MUCHO classifier, per-tournament sell %, schedule optimiser, action buy-in sizing, staking package builder, managed Lobbyize filters. Every parameter overridable by hand.

TRACKING

12 months of automatic tracking

Live SharkScope API integration — results stream in on real payout structures and your belief cloud updates as you play. No CSV exports. The six-month review call runs on this data.

COACHING

Three 1:1 calls with Felix

Onboarding, data review, six-month follow-up — a coaching arc built around your data as it accumulates. Unlimited async support over chat / Discord / email in between.

THE COACHING ARC — THREE CALLS, SPREAD ACROSS YOUR YEAR

01 The onboarding call WEEK ONE

We set up your account together: connect SharkScope tracking, import your full tournament history, and calibrate the Bayesian model to it. You leave with your belief cloud live, your archetype placed on the map, and a schedule to play against.

02 The data call ONCE YOUR HISTORY IS IN

A deep dive on what your history actually says: your real edge by format, speed and buy-in, where the model thinks your ROI comes from, what the variance picture means for stake sizing — what to sell, what to keep. Numbers replace the gut feeling.

03 The review call ~ SIX MONTHS AFTER CALL ONE

The tracker has now collected roughly six months of fresh data — a sample the model has never seen. We compare it against the plan from the data call: what did we see, where did the plan hold, and what do we adjust for the back half of your year.

MUCHO + MOTA

€1,200 / year + VAT

Billed €100 / month · 12-month initial term · then month-to-month, cancel renewal any time.
